

SATURDAY, APRIL 6TH 11-3:00PM PATHWAYS TO GOOD JOBS

Do you want to build your future?

As young people approach high school graduation, they face the major decision of what to do next: attend college, a training program, or enter the workforce. This event aims to expose young people (14-24) on how to find a good paying job with benefits after graduating high school or college. It also aims to expose young people to other career options by providing them with a variety of resources and information on different professional fields.

What type of job do you want? What will it take to get there?

Free Food! Prizes!

**Job/Apprenticeship/
Opportunities Fair**

**Interactive youth-led
Workshops**
